DETAILED ACTION

Status of the Claims

Currently claims 1–4 are under Examination.

Allowance

The following is an examiner's statement of reasons for allowance: In claims 1-4

Applicants claim a series of imine derivatives and process for the preparation of the same.

No prior art disclosing or suggesting the instant invention was found. The closest art was found in Van Wagenen et al, US patent 6211244B1, dated on April 3, 2001.

Van Wagenen discloses some amines prepared by different methods, including the condensation of the corresponding aldehydes and amines. However, the cited reference does not disclose or suggest the imines embraced in the instant invention.

CONCLUSION

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
